Mr. John Gilmour
Chief Executive Officer
Canada HealthLabs
120 Adelaide Street West, Suite 2150
Toronto, ON M5H 1T1

Dear Mr. Gilmour,

I am writing to extend the support from Revera Inc. to Canada HealthLabs.

Revera is a leading owner, operator, developer and innovator in the senior living sector. Through its portfolio of partnerships, Revera has several billions in assets and owns or operates more than 500 properties across Canada, the United States and the United Kingdom. With approximately 50,000 employees, Revera serves more than 55,000 seniors.

Revera's network of best-in-class partners supports our strategic focus on growth and innovation and shares our commitment to improving the future of senior living.

Covid-19 has altered how we approach congregate living and we have adapted as we prepare for the next waves of the virus. We strongly believe pro-active measures to monitor and screen entrants into our communities will ensure our staff and residents are protected.

We support the creation of a national network of fast, readily-accessible PCR tests using self-collected samples. I also appreciate that while your solution is to be created outside the health care system it uses the same tests at the same quality as health care and, in an emergency, could also be used for health care purposes.

We are pleased to endorse Canada HealthLabs to the Government of Canada and will use its network to provide Reassurance Testing as required.

Sincerely Yours,

REVERA INC.
